

SEYMORE DAILY REPUBLICAN

VOLUME XXX NO. 187

SEYMORE, INDIANA, FRIDAY, JUNE 23, 1911.

PRICE TWO CENTS

A LONG SESSION OF THE COUNCIL

Was Held Thursday Evening.—Bids
For North Poplar Street Im-
provement Opened.

CIVIC LEAGUE DELEGATION

Attended Meeting.—Interesting Dis-
cussion Regarding Park Improve-
ments.

At the meeting of the city council Thursday evening bids for the improvement of North Poplar street, between Sixth and Seventh, were opened.

Four were received and a meeting will be held tonight to consider them. The specifications were for a Portland cement concrete street, with cement gutters and curb and marginal stone curb at each end and at all intersections.

The bid of George Pomeroy and Louis Jennings was for street \$1.25 per square yard, gutter and curb 32 cents per lineal foot, for marginal curb 25 cents per lineal foot.

A. D. Shields and Harry Marberry bid 80¢ on street, 34 cents on gutter and curb and 34 cents on marginal curb.

The Seymour Construction Co., of which W. P. Masters and Omer Rinehardt are members, submitted a bid of \$1.22 on street, 39 cents on gutter and curb and 45 cents on marginal curb.

James DeGolyer put in a fourth bid of \$2,670 for the street complete. Councilman Davison declared this bid could not be considered as it was not made out in the detailed form asked for. Mr. DeGolyer however, insisted that his bid in the end was the same as the others as they would have to be figured out on a basis of total cost before it could be determined whose bid was the lowest and on motion of Councilman Misch, DeGolyer's bid was included for consideration tonight.

When the allowance of claims came up for consideration, the claim of Officer Wolf for expenses to Brownstown to attend the grand jury session which investigated the murder of Walter Robbins, was rejected as it was held that he was summoned by the state the same as other witnesses.

The council voted to reject the \$25 claim of the opera house management for rent of the clock, Davison and Misch voting in favor of the claim. The majority of the council expressed the opinion that there ought to be some definite understanding as to the exact ownership of the clock and the city's relationship to the clock.

No action was taken on the claim of C. H. Williams for fumigating Dreamland.

It was ordered that notes for \$10,000 against the city held by local banks be paid as it was expected that installment of taxes from county treasurer would be received Friday.

The vehicle tax ordinance was up for second reading and on motion of Davison the chairman of the finance committee, was instructed to make an investigation to determine as nearly as possible what revenue could

be expected under such an ordinance and the probability of being able to properly enforce it.

Early in the session Davison called attention to the fact that the council was honored for the first time in many months by the presence of a delegation of women. He took occasion to hand out a flowery jolly for the benefit of the visitors and cautioned the other councilmen to behave in the polite and courteous manner that the presence of ladies demanded. However some of his later remarks on matters in which the visitors were interested indicated peculiar ideas of politeness and courtesy.

The delegation was from the Civic League and included Mrs. Everett Meyer, Mrs. Will Clark, Mrs. Mark Williams, and Mrs. C. D. Hopewell, the latter being the speaker for the delegation. They were present to inquire what was to be done in regard to the petition of the League presented some time ago asking that certain things be done for the improvement and beautifying of the park. Mrs. Hopewell stated that the water company had agreed to donate enough water for use in the park, that the League had planned with the permission of the council to have flower beds made, to put up swings and establish playgrounds for the children and to put in an attractive fountain. The council was asked to help in building proper walks and to provide a caretaker, the latter being absolutely necessary if the other work is to be of benefit. Mrs. Hopewell and the others gave a clear and businesslike presentation of the case and in response to questions showed that they not only had plans which would mean much for the beautifying of the place but that they had in a practical way figured on the probable expense.

Councilman Davison in a wise and fatherly manner began a series of discussions and questions which seemed to be calculated to show that the visitors had not taken into consideration properly the financial and other phases of the proposition but in the discussion he was badly worsted, the responses of Mrs. Hopewell being keen and to the point and showing a full understanding of the case. Finally when on his objection to the cost of a caretaker his attention was called to the expenditures made that evening for the care of the park, his discomfiture became complete and he lost entirely the sweet and gracious manner he had been displaying. He had contended that there was no money provided for park purposes and it would be a violation of state and a few other laws to issue a warrant for expenditures proposed.

At this point Councilman Hodapp came to the rescue and threw into the hopper an ordinance which had been prepared and which provided that \$500 be appropriated for park purposes. W. R. Day moved that the rules be suspended and the ordinance be placed on its passage. All the councilmen excepting Davison and Misch voted aye but the votes of the two were sufficient to prevent the suspension of the rules. As a consequence the ordinance must take its regular course which means a delay of several weeks before there is a possibility of a caretaker for the park being secured and the plans of the League for improvement of the park be carried out. Mrs. Hopewell said that a caretaker could be secured for \$20 a month, this matter having been investigated.

Councilman Hodapp brought before the council complaints from

APPOINTMENT OF A RECEIVER

For the Indianapolis & Louisville Traction Company By Judge Anderson of Federal Court.

JOHN A. GREELEY WAS NAMED

The Action Was Result of a Petition Filed Recently.—Planned to Re-organize Finances.

In the Federal Court at Indianapolis Thursday afternoon Judge Anderson appointed John E. Greeley receiver for the I. & L. The action followed the filing of a suit recently against the I. & L. Traction Company, L. A. Robertson, trustee and Willard F. Woodruff and McClure Hoke of Louisville, Ky., by the Colonial Trust Company and Frank F. Brooks of Pittsburg, Pa., who hold bonds of the company valued at \$300,000. The sale of the road is requested.

The appointment of a receiver has been expected and it was reported a short time ago that either Mr. Greeley or H. D. Murdock would probably be appointed.

The statement was published that the directors at their last meeting in Pittsburg, decided that a reorganization of the financial affairs of the road was needed in order to place it on a paying basis and work was begun on a plan for reorganization which contemplated the filing of the suit and application for a receiver.

The new receiver's home is given as Scottsburg but he is located in Louisville most of the time.

He is well known in Seymour, having spent much time here during the early days of the road. He was the original promoter of the line and later was vice-president. He has not been actively connected with it for some time.

He is at the head of the Cincinnati, Madison & Western, the proposed line from Madison to Scottsburg.

It is expected that he will assume the duties of receiver at once.

The Indianapolis Star says of the suit and appointment of a receiver:

It is alleged by the plaintiffs that the traction company, issued 1,250 bonds for \$1,000 each, payment on which was to be concluded by April 1, 1936, with interest at 5 per cent. The company delivered the bonds to the Colonial Trust Company and Frank F. Barnes, trustees, April 1, 1906, it being stipulated that payments were to be made semi-annually on April 1 and Oct. 1 of each year. It was provided also that in case of default of principal or interest following a period of sixty days after maturity, action should be taken to force the payment. It is alleged that since April, 1909, no funds have been paid to the trustees with which to meet the obligations. Since Oct. 1, 1908, but \$18,750 was paid by the company to the trustees, and this amount was to be paid on a pro rata basis to the bondholders, it is alleged.

Since that time holders of more than 25 per cent. of the outstanding bonds have requested legal action, and on March 10 a demand for the

payment of the amounts due was made, but the company was unable to meet its obligations, it is asserted. It is alleged that the earning power of the company is not sufficient to produce a fund over the cost of operation and maintenance sufficient to meet the first mortgage indebtedness and that the liabilities of the company are greatly in excess of its assets. Messrs. Woodruff, Hoke and Robertson are claiming liens against the property of the road. It is said that at the March meeting of the stockholders a resolution was passed admitting the condition of the company. Several suits for damages are pending against the road.

Jerome Hill, president of the traction company, and Mr. Robertson, trustee, filed separate answers to the complaint and admitted the truth of the allegations.

The company operates a line from Seymour, Ind., to Sellersburg, Ind., and has its principal offices at Scottsburg, Ind. It has been in an unsatisfactory financial condition several years, it is said. Mr. Greeley, the receiver, has been interested in the company several years and assisted in its organization. His bond was fixed at \$30,000.

Lawn Party.

Mrs. T. Roeger Carter entertained a small company of friends Thursday evening at her home on North Broadway at a lawn party. The yard and porch were decorated with Japanese lanterns under which the tables were placed, and the guests played the popular game, "Rook." Refreshments were served. The only out-of-town guest was Mrs. May Dodd of Indianapolis.

Receiving Essays.

Some time ago the W. C. T. U. offered a \$5 prize for the best essay on the question of whether the city is really enriched or impoverished by the payment into the treasury of the money for saloon licenses. Mrs. R. R. Short was designated to receive the essays and a number have already been received by her. The contest will close July 14.

Want Fruit.

The Ladies Auxiliary of the Memorial hospital ask women in the city and country who are friends of the institution to each put up one extra can of fruit of each variety for the hospital.

Bring the cans to Mrs. Leroy Miller, 211 West Second street or leave word at hospital and fruit will be sent for and due credit will be given for donation.

j23d&w

Class Picnic.

Miss Joanna Newby entertained her Sunday School class of the First Baptist Church, at her home just west of the city Thursday at a picnic. The weather was fine and the children had a delightful day with out-of-door games. Refreshments were served.

Ice Cream Social.

The Christian Endeavor of the Presbyterian church will give an ice cream social on Mrs. J. R. Kessler's lawn at 222 North Walnut Friday night. Come, bring your friends.

j23d

Dr. George Knapp has returned from New York City and will be at the Conner house, Brownstown, Saturday, June 24.

j23d&w

Red-raspberries, blackberries, tomatoes, green beans, cucumbers, Mrs. Schobert's cakes, Teckemeyer.

Diamond ring free at the new shining parlor in Giger block.

j26d

Perhaps your property might be snuffed out by a fire—have you fire insurance?

AFTER the fire isn't the time to make a resolution to never be without insurance.

Right NOW is THE TIME to have us place your insurance in one of our strong, safe companies.

The cost is nominal and if we place the insurance, the protection is the best.

BRAKEMAN DIED THIS MORNING

Will J. McCulley Passed Away at Schneck Memorial Hospital at 7 O'clock.

INJURED ON SUNDAY EVENING

In Accident Near Mitchell.—Fell Between Two Cars and Under the Wheels.

Will J. McCulley, the young B. & O. S-W. brakeman, who was injured last Sunday evening near Mitchell, died at 7 o'clock this morning at the Schneck hospital.

He was slightly improved Thursday evening and while his condition was known to be serious, he was considered in no immediate danger last night. His mother was at the hospital until midnight when she left for her home on Mill street. Shortly after her departure the young man was taken suddenly worse and though everything possible was done for him by the physicians, his life could not be saved. His mother was again sent for when his condition became critical.

The body was taken to the undertaker's and later to the Mill street home where short funeral services will be held at 2 p. m. Saturday by Dr. Aspbury. Later it will be taken to Troy, Penn. for burial. He was twenty-four years old and was born in Corning, N. Y. He came here from Pennsylvania and had lived in Seymour about six months. His mother, Mrs. Eva McCulley and his sister, Miss Edith McCulley, lived with him and he was their sole support.

The accident which cost him his life while he was on a run from Washington to Seymour, was caused by jumping from one car to another. He fell between the cars and under the wheels and sixteen cars passed over him. His foot was cut off and after being brought to the hospital, the leg was amputated above the knee. He suffered numerous bad cuts and bruises in the accident. One injury to his side was the most serious and it resulted in his death. From the first his condition was known to be serious but as he had a splendid constitution and because of his gritty fight for life, hope of his recovery was entertained.

DIED.

ALLFIE.—Elizabeth Allfie, wife of John A. Allfie died at her home 314 Central Avenue, Thursday, June 22, at 10:45 p. m. A complication of diseases was cause of her death. She was born May 24, 1844 in Grassy Fork township near Tampico, making her age 67 years and 28 days. She was the daughter of John and Charlotte Rumph, deceased. She was united in marriage to Mr. Allfie Mar. 29, 1866. To this union were born three sons and three daughters, two of whom with the husband survive. They are Mrs. C. H. Benton of Indianapolis and Henry A. Allfie of this city. The two eldest sons died at the ages of 5 and 3. In 1910 her eldest daughter, Mrs. John Loper, died and in 1909 another daughter, Mrs. John Sauter, died. She has been confined to her room since Dec. 4, 1910 and the greater part of the time to her bed. Besides the husband and children she leaves three sisters and two brothers, Mrs. Nettie Spelts of this city, Mrs. Caroline Wheeler and Mrs. Frank Spray of Acme, William Rumph of Pleasant Grove and George Rumph of Missouri; also 12 grandchildren and one great grandson. Mrs. Allfie had lived here for nineteen years. Funeral services will be held at the residence Sunday at 2:30, conducted by the Rev. Miss Hottle, the United Brethren minister at Acme. Burial at Riverview.

DEPUTY.—Blanche, the 7 months old daughter of Mr. and Mrs. Theo. Deputy died this morning at two o'clock at the home on O'Brien street after an illness of two weeks. The funeral services will be held from the residence Saturday morning at 9 o'clock conducted by Rev. F. M. Huckleberry. The remains will be taken to Austin for burial.

Sale of Real Estate.

Notice is hereby given that the undersigned will receive sealed bids until one o'clock p. m. on Saturday, July 15th, 1911 for the following described Real Estate situate in the city of Seymour in Jackson county, in the state of Indiana to wit:

Lot number four (4) in block F.

Lot number five (5) in block F.

Lot number seven (7) in block F.

Also lot number six (6) in block F and a strip nine (9) feet in width off of the south side of lot number nine (9) in block F.

Also lot number five hundred and thirty-five (535) in block seventeen (17).

Also thirty-one (31) feet off of the east side of lot number two hundred and fifty-one (251) in block W.

Also nineteen (19) feet off of the west side of lot number two hundred and fifty-one (251) in block W and twelve (12) feet off of the east side of lot number two hundred and forty-nine (249) in block W.

Said lots will be sold separately, except lot 6 and 9 feet off of the south side of lot No. 9 in block F will be sold together.

Also 19 feet off of the west side of lot No. 251 and 12 feet off of the east side of lot 249 in block W will be sold together.

All of said Real Estate to be sold to the highest and best bidder for cash.

The Jackson County Loan and Trust Company.

Heart to Heart
Talks.

By EDWIN A. NYE

THE LAUGH CURE.

Helene Renouard, a French actress, has been infecting all Paris with her remedy for the ills of life.

Her medicine is laughter.

The actress tells how she was ill and in debt. One morning she awoke in despair. "Why get up? Would it not be better to get up no more in this world? I shed tears. All at once I began to laugh. It was a laugh of despair, but I felt much better. That was the beginning."

The vivacious Helene goes on: "There is my bad, bitter medicine. Why drink medicine for my stomach when I have no food to put into that so troubled stomach? Then I laugh. What a laugh! I drink my medicine and laugh." And so she discovered—

"The great secret—to laugh."

And now: "If my shoe comes unfastened I laugh. If I tear my dress I laugh. If I do any provoking thing whatever I laugh. When I feel blue I laugh. When my creditors came I told them I could not pay and laughed. They looked at me and laughed with me."

The result?

"You see, I just laughed at my troubles and—poof—they left me. I am no longer that poor, dyspeptic, pale checkered, sorrowful Helene."

Having formulated her new-old philosophy, theater managers took her up, and she began illustrating her cure, punctuating the teaching with her own infectious laughter. Paris capitulated. Helene had arrived.

A fad? To some extent. The Spartan nature easily absorbs a belief that fits its mercurial disposition. But—

There is much medicine in the cult-medicine for body and mind. It is nature's cure. A real laugh both massages the liver and drives the cobwebs from the corners of the brain.

A real laugh—not a mere cackle—is a powerful protest against pessimism.

Try the laugh cure.

Helene says: "You must begin each day with laughter. Begin as soon as you open your eyes in the morning. There's magic in it."

That's it. If you begin the day with a laugh the world will laugh with you. It is all in the mental attitude with which you approach your day.

Laugh early and often.

Laugh and your torpid liver loses its lethargy. Laugh and your fears flee like the morning mists. Laugh and the sky turns blue. Laugh and your petty troubles fold their little tents and silently steal away.

Laugh and you shall live long in the land.

Jacob's Ladder.

Among long staircases the world over none, it is safe to say, is so long or difficult of ascent as "Jacob's ladder." This remarkable flight contains more than 700 steps, all rising with the same lift in the same direction. The steps rise at an angle of exactly forty-five degrees. "Jacob's ladder" ascends a particularly steep hill at St. Helena. The steps are naturally the most direct route to the summit of the hill and despite their great length are traversed daily by hundreds of wayfarers. There are said to be many persons who from long practice are able to ascend the steep stairway at a rapid pace without once stopping for breath.

Superstitious Musicians.

Musicians are often singularly superstitious. Paderewski once ordered an expensive apartment in London, but refused to enter when he found it was No. 13 of a certain street, although he paid for it. Massenet has written twenty-one operas and many other compositions, but on all of his manuscripts page 12½ is written in place of 13.

Hay's Hair Health

Restores color to Gray or Faded hair—Removes Dandruff and invigorates the Scalp—Promotes a luxuriant, healthy hair growth—Stops its falling out. Is not a dye.

NO AGREEMENT
NOW IN SIGHTMuddle in the Senate Is Still
Very Bad.

TO REACH A COMMON GROUND

Efforts in This Behalf Between the
Democrats and the Insurgents Do
Not Seem to Get Anywhere and
There Is No Definite Prospect of an
Agreement Which Will Insure an
Adjustment of Differences.

Washington, June 23.—As the result of Wednesday's coalition between the Democrats and the insurgents the muddle in the senate is still very bad, but things seem to be shaping themselves in favor of Canadian reciprocity and toward the discomfiture of the insurgents. Several efforts were made by the insurgents and the Democrats to reach a common ground on which they could stand in regard to reciprocity, the farmers' free list bill, the wool bill and other tariff revision measures, but at the end there was no definite prospect of an agreement.

A large majority of the Democrats are in favor of dealing with reciprocity as a separate measure without amendment and rushing it through without delay. With reciprocity out of the way these senators would then take up tariff revision.

Senators Bailey of Texas, Simmons of North Carolina and two or three other Democrats whose opposition to the reciprocity bill is well known, are willing to compromise with the insurgents and secure if possible an agreement which will bring about an amendment to the reciprocity bill by way of a general revision of the important schedules of the present tariff law.

The well-known opposition of Bailey and Simmons to reciprocity has led other Democrats to regard their proposition with suspicion, and indications now are that nearly all the Democrats will stand for action on the reciprocity bill without amendment.

May Hold Caucus On It.

The Democrats who favor this course are talking of calling a caucus within a few days to commit the party in the senate to this course. These Democrats point out that any attempt to amend the reciprocity bill and jeopardize its life will in effect be a repudiation of the Democratic program of the recently elected house of representatives in regard to this bill. They favor not only the passage of the reciprocity bill in the form that it came from the house, but also the passage of the farmers' free list bill and the wool revision bill without any very radical changes.

The insurgents, on the other hand, in desiring the regular organization and locking arms with the Democrats, were actuated chiefly by a desire to kill the reciprocity bill and to embarrass President Taft. There is no likelihood that they will accept either the wool bill or the farmers' free list bill in their present form, and they are already busy drawing up amendments of their own covering most of the important schedules of the Payne-Aldrich tariff law.

If the Democrats, with the possible exception of Bailey and one or two of his followers, agree to stand by reciprocity without amendment, that bill will be passed. In that event the situation will come to this: Will the Democrats for the sake of obtaining tariff revision legislation, throw their own measures overboard and consent to compromises which will have the support of the insurgents? The general impression now is that they will not do this.

If any practical results in the way of tariff legislation come from the coalition, it is apparent that the insurgents will be obliged to give their support to out-and-out Democratic measures and not bills bearing the stamp of progressive Republicanism.

Portugal's New President.

Lisbon, June 23.—Anselmo Braamcamp was elected president of the republic of Portugal by the constituent assembly. Braamcamp has been acting as president of the municipal council of Lisbon.

President Taft told the members of the New York State Bankers' association at their banquet that some sort of drastic reform is necessary if the effects of monetary panics are to be minimized.

S.S.S.

CURES ECZEMA, ACNE,
TETTER, POISON OAK, ETC.

Eczema, Acne, Tetter, Poison Oak, Pimples, etc., show that some unhealthy humor or acid impurity is diseasing the circulation, and that a thorough cleansing of this vital fluid is necessary in order to correct the trouble. Salves, washes, lotions, etc., may relieve some of the itching and other discomforts caused by skin diseases, but such treatment has no effect on the blood and therefore cannot do any permanent good. Until the humor is removed from the circulation the cuticle will suffer the effects of an acrid irritation. S.S.S. is the best and quickest remedy because it is the greatest of all blood purifiers. It goes into the circulation, and removes every particle of the humor, whether it be an infection of poisonous plants or from other causes, and makes the blood pure, rich and healthy, allowing it to soothe and nourish the skin instead of irritating and inflaming it with acrid humors. Book on Skin Diseases and any medical advice desired sent free. S.S.S. is for sale at drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

SUNDAY SCHOOL LESSON

JUNE 25, 1911

REVIEW LESSON.

GOLDEN TEXT:—What doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God?

LESSON I.—Naaman healed, II Kings v, 1-14. Golden Text, Isa. xlvi, 22.

"Look unto me and be ye saved, all the ends of the earth, for I am God, and there is none else." Leprosy, a peculiar type of sin and sinners. Great sinners may be great in their own sight and in the esteem of others, but in God's sight lost. All can be saved if willing to submit to God and His ways. Money cannot buy it.

LESSON II.—Elisha's heavenly defenders, II Kings vi, 8-17. Golden Text, Ps. xci, 11. "For He shall give His angels charge over thee to keep thee in all thy ways." God knows all our ways and our going out and coming in, and also our thoughts (Ps. xxxix and Ezek. xi, 5). If God be for us, who can be against us? God with us is more than all who can be against us. Opened eyes to see the unseen is our great need. He can do it.

London, June 23.—Today is the Prince of Wales's birthday, and a host of gifts awaited him. The most valued one was a horse from his father.

CROSSED THE LINE

AND SURRENDERED

Hotly Pursued Mosby's Men
Lay Down Arms.

San Diego, Cal., June 23.—In a battle three miles east of Tia Junanta, five hundred Mexican federales sent from Ensenada, Lower California, defeated General Jack Mosby and his force of approximately 160 rebels. The battle lasted two hours, during which the federales, under command of Colonel Vega, compelled the rebels to break ground steadily. The federales had two machine guns, which were used to advantage. When the rebels reached the international line, closely pursued by the federales, they laid down their arms and, crossing the line, surrendered to the United States troops. The federal casualties are placed at fifty killed and wounded. Two rebels were killed and two wounded.

"We will take our chances on being extradited," said General Mosby, when he surrendered his force to Captain Wilcox of the United States army.

The elimination of this force doubtless ends the revolt in Lower California. Mosby and his men, who were mostly young Americans, were fighting for the Magonista liberal faction, made up of Socialists and under direction of the junta here, the members of which were arrested a few days ago on federal charges.

Fifty Killed in Street Fight.

Mexico City, June 23.—Dispatches from Jalaxa, the capital of the state of Vera Cruz, say that fifty were killed and many wounded in an encounter between federal soldiers and Maderistas, in which the populace took part. The trouble arose over the misinterpretation of orders issued by General Pena, in connection with the removal of arms and ammunition from the arsenal there.

TERSE TELEGRAMS

The last remnant of men defying federal authority in Lower California has surrendered.

Queen Alexandra attended the coronation service at Sandringham. Otherwise she took no part in the coronation publicly.

It is probable that the water will not all be pumped out of the cofferdam around the wreck of the Maine for two months.

Mrs. Mary L. Cox has been granted a divorce at Cleveland from Congressman James M. Cox. The decree was based on allegations of neglect.

John M. Andrews, former superintendent of the water plant at Warren, Pa., was convicted of the murder of Emil Amann, foreman under Andrews.

According to well authenticated rumors, President De La Barra has definitely refused the place in the Mexican cabinet offered by Francisco Madero.

Mrs. Mary Scott Lord Harrison, widow of the late President Benjamin Harrison, had her handbag snatched from her in Venice. She screamed and the thief was arrested.

Robbers struck down H. T. Reid, a Los Angeles diamond broker, as he was opening the safe in his office, left him perhaps fatally injured and escaped with diamonds worth \$15,000.

Stop That Torturing HEADACHE

A headache is irritating, nerve-racking and therefore weakening. Worst of all there's a cause—an organic disorder—that you must not neglect. Don't continue to suffer—don't drift into serious ailments—get a package of Caparine today.

CAPARINE
FOR HEADACHES

stops the worst headache almost instantly and then relieves and cures the condition that produced it. Colds, constipation, biliousness and grip yield quickly to this remarkable preparation. Caparine is a tonic and stimulant and a gentle laxative. Be prepared for the next headache—get a package today. At all druggists—10c and 25c. DeKalb Drug & Chemical Company, Ltd., DeKalb, Ill.

BEACON FIRES LIGHT ENGLAND

From Land's End to John O' Groats They Blazed.

FITTING END OF EVENTFUL DAY

From More Than Two Thousand Hilltops Bonfires Blazed, Indicative of the Kingdom-Wide Enthusiasm Over the Crowning of the King—Every Village, Town and City in England Celebrated the Coronation.

London, June 23.—Compared with the state banquets earlier in the week, the dinner party at Buckingham palace last evening, which closed the king's eventful day, was a quiet affair. The guests were the members of foreign royal families who are actually staying at Buckingham palace, including the nearer relatives of the king and queen. Forty covers were laid.

The signal was given from the Crystal Palace at 10 o'clock to light the bonfires in Great Britain from Land's End to John o'Groats. An enormous magnesium star was sent up from the palace. The massed bands of the guards regiments played "God Save the King," and an enormous assemblage of people joined in singing the anthem. Immediately the star arose the watchers on beacons in the neighboring heights fired fuel piles and soon the flares thereof were seen in other places. These were ignited and so on until more than 2,000 fires blazed from Britain's hill tops. Some piles had wide-based pyramids with timber covered with creosote rising forty feet high. They were indicative of the kingdom-wide enthusiasm over the crowning of the king. Every village town and city has been celebrating in some form. Big cities like Edinburgh, Glasgow, Liverpool and Birmingham celebrated on scales that might be compared with that of London. Nowhere was the occasion neglected.

The combined light of millions of electric globes and gas flares last night threw a brilliant reflection on the sky above London that was visible for a long distance. It gave outside watchers a faint idea of the dazzling glare that illuminated the streets, where hundreds of thousands of coronation celebrants tramped to and fro winding up the strenuous day.

From Hyde Park corner to the Bank of England the main thoroughfares, especially the processional routes, blazed with light. Wheel traffic was stopped about 7 o'clock and the roadways were given up to the people, who ceaselessly passed east and west in two steady streams. The movement early in the evening was extremely slow, especially in the brightest spots, but the people seemed possessed of imperturbable patience and were determined to see everything. Rain fell lightly a good part of the evening, but the crowd was not thinned out until nearly midnight, and it then rapidly melted.

The official time for dousing the glims was 12:30. Only the rowdies remained after that and numbers of them who had celebrated the day not wisely but too well, became conspicuous. Noisy stragglers with trumpets and rattlers kept up a dribbling procession far into the morning.

NOT FOR THEM

Coronation Doings Spurned by Regina Trades Unionists.

Regina, June 23.—"The most disloyal act ever known in western Canada" are the words applied by leading citizens of Regina, the capital of the province of Saskatchewan, to the act of the Regina Trades and Labor Council in refusing to take part in the coronation parade and festival. The arrival of Mr. Borden, leader of the opposition in parliament house, to speak against reciprocity and the demands of the western grain growers accentuates the feeling against the trades and labor council, who in a letter to the coronation committee said in reference to the invitation for labor men to take interest in the coronation day proceedings, that "it is the opinion of this council that the coronation of the king is a matter which is of no concern to the working class, and that we as representatives of that class have no wish to parade in any affair to which we are indifferent."

OFFICIAL STATEMENT

Of the Appropriations Made at Last Session of Congress.

Washington, June 23.—A statement of the total appropriations for the last session of congress, prepared by the clerks of the various appropriations committees, just made public, shows that the second session of the Sixty-third congress was in the "billion-dollar class," with total appropriations of \$1,025,682,881.72.

In addition to the specific appropriations made, contracts were authorized to be entered into for certain public works requiring future appropriations by congress in the aggregate sum of \$14,354,145.

Lafayette, Ind., June 23.—The Lafayette police arrested A. M. Schoenlaub, accused at Chicago for being concerned in the murder of Dutch Bill Gentleman and other labor union slugging cases in that city.

DUKE OF NORFOLK.

Premier Duke Who Made All the Arrangements For Coronation.

PUTS IT UP TO SUPREME COURT

Two Important Decisions Affecting State Laws.

DECLARED UNCONSTITUTIONAL

Judge Vurpillat in the Pulaski Circuit Court Holds Thus in a Decision Relating to the Guild Ditch Clearing Law and the Public Accounting Law, Both of Which He Says Are Contrary to the Constitution of Indiana.

Winamac, Ind., June 23.—The Guild ditch clearing law is declared unconstitutional by Judge Vurpillat of the Starke-Pulaski circuit, because it takes the cleaning of ditches from the jurisdiction of the surveyor and gives the land owner no right to bring matters into court and without the right of appeal, and the land owner, who was originally assessed on a drain, must pay a share of cleanout cost regardless of benefits to him; that notice of cleaning is only to be given to those originally assessed and not to others concerned who might be benefited by the proposed cleanout. The ruling was given in the case of Shilling et al. vs. Kline.

Judge Vurpillat also ruled in the case of Robbins vs. Auditor Lee M. Ransbottom of Starke county, that the public accounting law was unconstitutional. He held the plaintiff as a taxpayer was deprived of his property without due process of law and the title of the act did not express the subject matter contained therein. He also ruled that the law was in violation of Section 39 of the federal constitution.

Robbins had brought suit to enjoin the auditor from paying \$1,700 to six field examiners in Starke county.

A GOOD LAW

One Town Proposes to Protect Its Newly Weds.

Columbus, Ind., June 23.—June weddings are becoming so numerous here and the old custom of giving newly married couples a charivari has been revived to such an extent that the police have been asked to take a hand.

An old city ordinance—adopted in 1888—has been dug up which makes the charivari unlawful. It provides that it shall be unlawful for any person or persons to annoy newly married couples by the blowing of horns, the beating of pans, drums or other articles or the discharge of firearms or anvils. A fine of not more than \$10 is fixed, to which may be added a jail sentence of not more than thirty days. The police have been instructed to enforce the ordinance.

RE-ELECTED HIM

Mayor Darrow Stands Well With Municipal League of Indiana.

Crawfordsville, Ind., June 23.—Lemuel Darrow, mayor of Laporte, was unanimously re-elected president, and Hartford City was chosen as the meeting place for the 1912 convention by the delegates of the Municipal League of Indiana at the close of their twenty-first annual session here.

The other officers of the league for the coming year are as follows: Dr. E. C. Loehr, mayor of Noblesville, first vice president; James E. Burke, mayor of Jeffersonville, second vice president; Fred B. Robinson, city clerk of Crawfordsville, treasurer, and J. C. Trent, city clerk of Hartford City, secretary.

Common Law Marriage Dissolved. Logansport, Ind., June 23.—Although she had never been married, Emma Grauel obtained a divorce from Absalom Grauel on the ground of desertion. The plaintiff testified that although they had lived together eighteen years and had seven children, she and her husband were never married. Judge Laird held that they were married under the common law, and granted the wife's petition for divorce.

Death of Mrs. Phillips. Madison, Ind., June 23.—Margaret J. Phillips, mother of David Graham Phillips, died enroute from California to her home here. The body will be buried at Madison tomorrow. David Graham Phillips was an author, who was killed in New York several months ago.

Caught Without Warning. Hammond, Ind., June 23.—Charles Fleming, aged fifty, switchman, of East Chicago, and W. G. Murch, aged forty-five, switchman, Chicago, were killed at Gibson, a mile east of Hammond, on the Indiana Harbor railroad, when a cut of cars was backed on a repair track without warning to them.

Wendling Must Serve Time. Frankfort, Ky., June 23.—The court of appeals of Kentucky has overruled the petition for a rehearing for Joseph Wendling, sentenced to the penitentiary for life for the murder of eight-year-old Alma Kellner in Louisville in 1909.

Must First Grow Hair. Evansville, Ind., June 23.—Because he is bald, James Newkirk, aged twenty-eight, living at DeKoven, Ky., failed to get into the United States navy.

TWO ACCIDENTS

Three Men Injured.—Two of Them
Badly Hurt.

White working on the new residence of E. S. Jordan in the Read-Jordan addition this morning, William Mabee and John Hagel were injured by the falling of a scaffold. Mr. Mabee suffered two broken ribs and a broken shoulder bone and is in quite a serious condition. Hagel's injuries were slight.

Zack Marling, aged 65, fell from a house he was repairing in Glenlawn this morning. In the fall he received injuries in the back of his head, neck and shoulders and owing to his advanced age they may prove quite serious.

BAND WILL PLAY

In Automobile Parade Saturday Afternoon.

A band has been engaged and will head the parade of automobiles which will be given at 1 p.m. Saturday before the start for the scene of the hill climbing contest east of Spraytown in Hamilton township.

The contest promises to be an interesting event and to attract a big crowd. The first trial will begin about 2 o'clock.

Books Added.

The following books have been added to Seymour Public Library:

A Tennessee Shad—Owen Johnson.

The Visioning—Mrs. Glaspey.
Felicia Visits—E. L. Gould.
Get Rich Quick Wallingford—G. R. Chester.

Members of the Family—Owen Wister.

Yellow Men and Gold—Gouvernor Morris.

Master of the Vineyard—Myrtle Reed.

Adventures of a Modest Man—Robt. W. Chambers.

The Lilac Fairy Book—Andrew Lang.

A Senior Quarter-Back—T. T. Hare.

The Shannon Lectures.

In view of the short notice given, failure to secure singers from a distance and delay in his advertising matter, Prof. Shannon will probably remain several days longer in our city than he had planned. Because of these conditions he will not be able to follow the program advertised in the public windows. He will lecture tonight on heredity, "Like begets like, like father like son," or "The chickens will come home to roost." He will give the country people one or two addresses on the street Saturday. No day services at the tent this week. No charge to hear these lectures. A freewill offering will be conducted.

NEW YORK TO HAVE WORLD'S TALLEST HOTEL.

Rent Amounting to \$30,000,000 Will Be Paid in the Next Eighty-four Years.

The tallest hotel in the world is to be erected at Seventh avenue and Thirteenth street, New York, near the new station of the Pennsylvania railroad. It is to be built for a New York hotel man by a syndicate of bankers and investors. The plans and specifications provide many novel features. The lessee, whose name is not made public, has taken a lease of the building for twenty-one years, with three renewals, at an annual rental of \$350,000. He will therefore pay \$29,400,000 all told for the full term of eighty-four years.

The hotel will be twenty-four stories high. In point of rooms the new hotel will be larger than the Waldorf, which has 1,000 rooms. It will provide 1,200 rooms, each provided with a bath. An interesting feature is that all the rooms will have southern exposure.

The hotel will be built in four sections, as the facade will be broken by three large courts or recesses, each 22 by 71 feet, and all sides save the northerly end will be finished as fronts. The large courts make it possible for all rooms to have outside windows.

The dining room will be 100 by 100 feet, with a capacity to seat about a thousand persons, counting the balcony space. The main feature of the dining room will be its three levels, and a person entering will have an impression of standing at an elevation, as if he were on a stage in a theater.

There will be a Pompeian bath in the center of the base of one of the courts at the second floor level and roofed over, the atrium being under the glass dome. It will have a white marble plunge pool fifty feet in length, and this is to be surrounded by steam and cooling rooms and other accessories of the bath.

On the roof will be a glazed dining room, surrounded by a spacious terrace, and beyond this there will be an open garden with pergolas and other arrangements that still permit the use of the gardens for theatricals and open air amusements.

FRIDAY, JUNE 23, 1911.

TO HUNT BIG GAME.

Only Bows and Arrows Will Be Used by This Party.

James Chaille and Z. E. Jackson of Atchison, Kan., are going hunting in the wilds of British Columbia armed only with bows and arrows. They expect to go after mountain lions and grizzly bears if the opportunity should arise.

"I expect the most enjoyable time of my life on that trip," said Mr. Chaille. "I am sure we will enjoy hunting with our primitive weapons more than the man who can stand a mile away and bring down a deer or bear with a big express bullet. There is the same difference between hunting with bow and arrow and with a rifle as between catching fish with a fly and in a seine."

Mr. Chaille and Mr. Jackson will leave Atchison July 7 for Seattle. There they will be joined by Harry B. Richardson of Boston, who holds the world's archery record, and William H. Thompson of Seattle, also an expert archer. From Seattle they will sail up the coast of British Columbia 400 miles, and when they have reached a point which appears favorable for hunting they will go ashore and push into the interior.

A large supply of arrows which the party will take has been made near at odd times during the last spring and winter.

AVIATION BAD FOR COWS.

Objections to Maryland Farm Being Used For Flights.

Because the officers who made the preliminary examination of the ground around Annapolis belonging to the navy and available for the aviation work to start in July have chosen as a starting place the field set aside for the herd of cows which is to supply the midshipmen with pure milk a conflict is threatened between those who are to conduct the experimental work in aviation and those who are interested in the equipment of the model dairy for the midshipmen.

The ground in question is the Greenberry Point farm, recently purchased by the government for \$80,000. Those who have had charge of the arrangements for the dairy fear that the flights of the aeroplanes and their quick descents will frighten the valuable animals which have been purchased and interfere with the quality of the milk.

The experiments are the first in aviation to be conducted by the navy department. Three aeroplanes are promised by July 1, and experiments in flying over land and water will be conducted.

Largest Vaults In the World.
Three vaults will soon be constructed by Uncle Sam in the bureau of engraving and printing which will be the largest in the world. The vaults are for paper money, printing plates and postage and revenue stamps. Each will be thirty feet long, twelve feet high and thirty feet wide. The doors will be three feet through, of alternate layers of chrome and bessmer steel, a combination that is held to be impregnable. To transfer the steel for the new vaults to Washington will require 300 freight cars. To build the three great safes will take nearly three years. The expense of installing them is estimated at about \$600,000.

THE IDEAL

A QUICK TWIST.

Why the Watchful Owl Didn't Wring Its Own Head Off.

Boys who have tried to "put salt on a bird's tail" generally come to the conclusion that birds can "see behind them," and some may half believe that the heads of these little creatures are hung on pivots. How easily one could conceive such a notion is illustrated by the experience of a Maryland man who had read a story about an owl wringing its own neck by looking at a man who was walking around him. The Marylander decided to experiment along these lines and so procured a fine specimen of an owl and placed him on a post.

It was not difficult for the experimenter to secure the owl's attention, for the bird never diverted his gaze from the man while the latter was present. The man began walking rapidly around the post a few feet from it, keeping his eyes fixed upon the bird all the while.

The owl's body remained motionless, but his head turned exactly with the man's movements. When the man was halfway round the owl's head was directly behind. Three-quarters of a circle were completed, and still the same twist of the neck and the same stare followed the man.

One circle and no change. On the man went, twice around, and still that watchful stare and steady turn of the head. Three times the man went around, and he began to wonder why the owl's head did not drop off, when all at once the man discovered what he had failed to notice before.

When the man reached a distance halfway around from the front, which was as far as the owl could turn his head to follow the experimenter's movements with comfort, the owl whisked it back through the whole circle so instantaneously and brought it facing the man again with such precision that the latter failed to detect the movement, although he was looking intently all the while at the bird.

The Marylander repeated the experiment many times afterward on the same bird, and he had always taken care to detect the movement of the readjustment of the owl's gaze.—Philadelphia Record.

SOBERED AND LABELED.

The Pre-Raphaelite Treatment For Drunken Geniuses.

Nothing in Mr. Ford Madox Hueffer's "Ancient Lights" is more amusing than the account of his illustrious grandfather's efforts to reclaim the many drunken geniuses of his acquaintance. It appears that he was in the habit of providing several of them with labels, upon which were inscribed his own name and address.

Thus when one of these geniuses was found incapable in the neighborhood he would be brought by cabmen and others to Fitzroy square. The poet, being thus recaptured, would be carried upstairs by Charlotte and laid in the bath and would be reduced to sobriety by cups of the strongest coffee that could be made (the bath was selected because he would not be able to roll out and injure himself). And, having been thus reduced to sobriety, he would be lectured, and he would be kept in the house, being given nothing but lemonade to drink until he found the regime intolerable. Then he would disappear, the label sewed inside his coat collar, to reappear once more in charge of a cabman.

Whistler was not among the wine bibbers, but he had other peculiarities. "Upon one occasion," says Mr. Hueffer, "Madox Brown, going to a tea party at the Whistlers' at Chelsea, was met in the hall by Mrs. Whistler, who begged him to go to the poultier's and purchase a pound of butter. The bread was cut, but there was nothing to put upon it. There was no money in the house, the poultier had cut off his credit, and Mrs. Whistler said she dare not send her husband, for he would certainly punch that tradesman's head."

It was not difficult for the experimenter to secure the owl's attention, for the bird never diverted his gaze from the man while the latter was present. The man began walking rapidly around the post a few feet from it, keeping his eyes fixed upon the bird all the while.

The owl's body remained motionless, but his head turned exactly with the man's movements. When the man was halfway round the owl's head was directly behind. Three-quarters of a circle were completed, and still the same twist of the neck and the same stare followed the man.

One circle and no change. On the man went, twice around, and still that watchful stare and steady turn of the head. Three times the man went around, and he began to wonder why the owl's head did not drop off, when all at once the man discovered what he had failed to notice before.

When the man reached a distance halfway around from the front, which was as far as the owl could turn his head to follow the experimenter's movements with comfort, the owl whisked it back through the whole circle so instantaneously and brought it facing the man again with such precision that the latter failed to detect the movement, although he was looking intently all the while at the bird.

The Marylander repeated the experiment many times afterward on the same bird, and he had always taken care to detect the movement of the readjustment of the owl's gaze.—Philadelphia Record.

Sad Looking Man—I see you have a sign out. "Maker of Women's Habits." Do you mean it? Ladies' Tailor—Certainly I do. Sad Looking Man—Well, since my wife's been going to the club she's lost all the good ones she had, and I wish you'd make her a complete new set regardless of expense. And please include the habit of staying at home once in awhile and mending my clothes.—London Tit-Bits.

Different.

"Charity begins at home."

"So it is said."

"Yes, and it often stays there."

"It is the opposite of reform, isn't it?"

"How is that?"

"Reform begins away from home."

"That's so, as a general thing."

"And it never gets there."

Wanted a Special.

"You have great sunsets here."

"Yes."

"Could you pull one off about 10:30? I have to catch a noon train."

She Knew.

"You know what is said about a soft answer."

"Certainly, I always observe the adage."

"It is an adage, isn't it? Let me see—how does it run?"

"A soft answer often turns a man's thought to a proposal."

Economical.

Along the beach so lightly clad She goes where bathers scoot. I'm sure it did not break her dad To buy her bathing suit.

A Persuader.

THOMAS CLOTHING CO.

CITY GOVERNMENT BY COMMISSION

Originated In Galveston Eleven
Years Ago.

RESULT OF GREAT FLOOD

How It Rebuilt the Town, Constructed
the Sea Wall, Restored Credit and
Scored Such a Success That It Is
Now Spreading Throughout the Land.

By JAMES A. EDGERTON.

Americans are long suffering under abuses, but when the limit is reached they go after the evil without gloves. Our municipal governments present a case in point. For generations we have stood their rottenness, inefficiency, grafting and disgrace. Now they are becoming so bad we can put up with them no longer. The result is that we are eradicating the old system root and branch and substituting therefor the commission plan of government. The old scheme had got past the mending point. It had become honeycombed with ward and partisan politics. To ourselves it was a reproach, to other nations a standing joke. It was a combination of Tammany and Hinky Dink. The exposures in St. Louis, San Francisco, Pittsburgh and elsewhere only scratched the surface. It was time for a new deal, and the new deal has come. Now the cities of the entire land are falling over each other in their haste to try on the commission system. Wherever inaugurated it has worked like a charm. Everybody is happy over it except the professional politicians and the grafters.

The commission form of government in America is only a trifle more than ten years old. It started in 1900 as a result of the Galveston flood. So staggering was the catastrophe that the old form of government was unable to meet the crisis. Alderman McMaster proposed that the council resign in a body and call in business men and experts to deal with the extraordinary situation. This was done. A commission of five was formed, two of them elected by the people and three appointed by the governor. Afterward the supreme court decided that the governor had no right to appoint, and all the commissioners were elected.

Prior to the hurricane and tidal wave that so nearly swept her off the map Galveston had the usual discouraging history of municipal misgovernment. As a result she was in debt, her bonds were below par and her treasury on the verge of bankruptcy. Under the commission system the city was rebuilt, the grade raised several feet, the streets repaved, a retaining sea wall constructed, the debt cut down, expenditures kept within the revenues, city employees paid in cash, bonds brought to a premium, streets kept cleaner, sanitation improved, saloons kept out of the residence districts, politics banished from the city hall, public gambling abolished, civic spirit awakened and a condition of harmony and prosperity begun such as Galveston had never before known. In other words, the new government did better in the face of the calamity than the old had done in times of tranquillity. One most significant fact is that, despite the expenditures required to rebuild, raise and protect the city, the tax rate was kept down lower than that of any large city in Texas.

To show the contrast between the old Galveston government and the new, public improvements had stopped under the former "ring rule" and public buildings were deteriorating.

finances were going behind at an average of \$100,000 every year, city employees, including even schoolteachers, were paid in scrip, and the bosses, who were growing rich, had such a grip it was impossible to shake them loose.

All that is now changed. The floating debt has been retired, a sinking fund started, public improvements are going forward, bills are paid in cash when due, and the political bosses have become unpleasant memories.

That these and other beneficial results are due to the commission system of government is proved by the fact that other cities adopting the commission plan have had a like experience.

Under what came to be known as the Galveston plan each of the commissioners took charge of some branch of the city government. For this he was responsible to the commission as a whole and to the people. So successful was the system in the city of its origin that other municipalities in all parts of the land began to study it with interest.

To one who does not believe in universal panaceas and cure-alls the working out of the commission form of government is little less than marvelous. It has agreeably surprised both its friends and enemies. Is it the long looked for solution of our municipal government problems? An unqualified affirmative answer is almost too good to be true, and it is too early to go that far, yet the more one studies what has actually been accomplished under the new system the more enthusiastic he grows. My own prediction is that as soon as the bulk of American cities realize just what has been achieved in the commission towns there will be such a scramble to make the experiment for themselves that it will result in a virtual municipal revolution.

IMPORTANCE OF HEALTHY KIDNEYS

Seymour Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching begins, and is usually accompanied by some irregularity of the urine—too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 75 years. You will make no mistake in following this Seymour citizen's advice.

A. P. Williams, 217 S. Broadway, Seymour, Ind., says: "I suffered intensely from kidney and bladder complaint and was unable to get permanent relief until I used Doan's Kidney Pills. This remedy restored my kidneys to a normal condition and improved my health wonderfully."

For sale by all dealers. Price fifty cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

PERT PARAGRAPHS.

A PERSON of tact is one who seems to know by instinct where the sore spot is and to have an aversion for it.

A mean man is one who accumulates treasure that never does his friends any good.

A gown good enough to make a woman amiable is expensive enough to make her spouse cross.

Some people lie for fun, others for money—and don't get it.

Handsome is the actress who hires a good press agent.

A good bank account often enables a man to give an excellent account of himself.

Smart people make others smart too often to have a large and enthusiastic circle of friends.

People who are lame in the intellect often limp in their language.

An outright person frequently gets in wrong.

The price of a thing often cures the appetite for it.

You can give an approximate guess as to a man's income by the amount his wife spends.

Mysterious Disappearance.
Where are, since vanished is the craze. The bicycles of other days? It used to be that one would meet a bicycle on every street. On highways, byways, country pikes. There was an endless chain of bikes. Where has it gone, that rolling sea? And echo only says, "Search me."

It used to be the fat, the tall. The young, the old, and one and all went whizzing by at morning light. And then whizzed back again at night. In fact, a regular old gee whiz. A sort of jumbled human phiz. Was every moment scooting by. And making nimble pedals fly.

And all the talk that one could hear related to the running gear. Or pedals, tires and handle bars. And saddles that were free from jars. And one who didn't have a wheel. Could chilly isolation feel.

For not a soul with him would talk if all that he could do was walk.

True, there are riders now and then. Bold youths or plain, old fashioned men. A girl or two with mincing tread. But, on the whole, the craze is dead. And no one asks who lost or won. Or speaks of centuries he won. To where have vanished from our gaze the bicycles of other days?

Worries Her.
"What has given your wife nervous prostration?"

"You know we have a poll parrot?"

"Yes."

"Well, she is determined to talk all the time."

"And can't your wife stand it?"

"My wife always has to have the last word."

Bound to Cure.

"I am desperately in love."

"Well, what of it?"

"Can you recommend a cure?"

"Do you want to be cured?"

"Sure. I cannot afford such a luxury."

"Then get married."

Lightning Kills Few.

In 1906 lightning killed only 169 people in this whole country. One's chances of death by lightning are less than two in a million. The chance of death from liver, kidney or stomach trouble is vastly greater, but not if Electric Bitters be used, as Robert Madsen, of West Burlington, Ia., proved. Four doctors gave him up after eight months of suffering from virulent liver trouble and yellow jaundice. He was then completely cured by Electric Bitters. They're the best stomach, liver, nerve and kidney remedy and blood purifier on earth. Only 50c at The Andrews Drug Co.

BREAD TRUST IS THE NEWEST

Biggest Bakeries of Seventeen Cities Are In the Combine

HAS A CAPITAL OF \$20,000,000

Organizers Declare That There Will Be No Monopoly and That the Only Purpose of the Combination Is Economy.

Following the incorporation under the laws of New York state of the General Baking company, there has been launched a \$20,000,000 combination of bread manufacturers, which includes leading bakeries in seventeen cities.

The new company will have \$10,000,000 of 7 per cent preferred stock, \$10,000,000 of common stock and \$5,000,000 of first and refunding 6 per cent bonds. It is planned to issue at this time \$7,000,000 of the preferred stock, half of the authorized common and \$3,500,000 of the bonds.

It is said that in the formation of the company there is no thought of the establishment of a monopoly in the manufacture and sale of bread and that such monopoly would be impossible, as in most localities, with few exceptions, only one baking company has been acquired, leaving competition open to hundreds of others. The real purpose of the company is described as being progression through close buying of materials, general economies, up to date methods of manufacturing and extensive advertising.

Official Statement.

According to the official statement, the company has a philanthropic purpose as well. The statement says:

"The General Baking company has discovered several elements of interest in the bread business. First and foremost of these is the maintenance of absolutely clean and sanitary bakeries, the use of the most modern and improved machinery and the most rigid inspection, so that the products of the several establishments will rank as absolutely pure and hygienic. It has also discovered that by raising the standard of quality of bread of a certain number of bakeries in the populous centers of the country without increasing the cost a great object lesson is to be taught and that the general output of bread everywhere will eventually and naturally be brought up to this improved standard."

It is estimated that 70 per cent of all the bread in the country is made by housewives and 30 per cent by bakers. There is said to be \$270,000,000 invested in the business.

List of Members.

Here are the twenty one companies which have joined the combination: Fleischmann's Vienna Model Bakery, Incorporated, New York city; McKinley Bread company, St. Louis; the J. G. & B. S. Ferguson company, Boston; Boston Baking company, Washington; Ontario Biscuit company, Buffalo; Baileys Bread company, Pittsburgh; Deininger Bros' company, Rochester; United Baking company, Toledo; Morton Baking and Manufacturing company, Detroit; Arnold-Althaus company, Providence; Vories Baking company, New Orleans; Freihofer Vienna Baking company, Philadelphia; George G. Fox company, Boston; Juergens Baking company, Wheeling, W. Va.; Collins Baking company, Buffalo; Weber Baking company, Newark; C. Martens company, incorporated, Jersey City; Brunner Baking company, Buffalo; Canton Baking company, Canton, O.; Rochester Baking company, Rochester, and Cleveland Bread company, Cleveland, O.

FOR BROKEN HEAD.

St. Louis Physician Tells a Fracture by Consulting Big Toe.

If you tickle your ankle and your big toe turns upward and the other toes spread outward your skull is fractured, says Dr. C. G. Chaddock, a member of the visiting staff at the St. Louis City hospital, who says he has made the experiment in 275 cases and has not failed once.

If your skull is intact the tickling of the ankle will cause your toes to turn downward and draw close together. Dr. Chaddock says the spot on the ankle that will reveal skull fracture is a half inch above the sole of the foot on the inside of the ankle.

Before Dr. Chaddock made his discovery, which is interesting the medical world, it was the custom to rub the hands over a man's head in an effort to discover possible fractures. The spot on the ankle is closely connected with the brain by a lesion in the central motor track, Dr. Chaddock says.

Dr. Babinsky was the first to approach the present successful method of discovering skull fractures, according to Dr. Chaddock. He tickled the sole of the foot, but this failed in many cases.

Grows Trees For Canes.

Theodore W. Burkham, a progressive Indiana farmer, living on a large tract of fertile land near Lawrenceburg Junction, has set out several hundred young trees of a peculiar variety, and a number of acres will be devoted to them. When the trees have obtained sufficient growth they will be sold to be made into umbrella handles and canes.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO.

Toledo, O.
Sold by Druggists, 75c
Take Hall's Family Pills for constipation.

Guthrie Creek.

Ed Meeks went to Surprise Saturday on business.

Lawrence and Clarence Childers attended the ice cream supper at Manuel's church Saturday night.

A. M. Kiplinger and wife went to Leesville Saturday night.

Bud Branaman hauled corn from Wes Ray's one day last week.

A. M. Kiplinger and Ed Meeks brought their binder from Norman Station Thursday.

T. J. Plummer of Sparksville was here Monday on business.

Mrs. John P. Henderson is sick.

Lou Baker visited her brother near Liberty Monday.

Saved His Wife's Life.

"My wife would have been in her grave today," writes O. H. Brown, of Muscleman, Ala., "if it had not been for Dr. King's New Discovery. She was down in her bed, not able to get up without help. She had a severe bronchial trouble and a dreadful cough. I got her a bottle of Dr. King's New Discovery, and she soon began to mend, and was well in a short time." Infallible for coughs and colds, its the most reliable remedy on earth for desperate lung trouble, hemorrhages, lagriple, asthma, hay fever, croup and whooping cough. 50c, \$1.00. Trial bottle free. Guaranteed by The Andrews Drug Co.

REJECTED IT

House Would Not Accept the Bristow
Amendment.

Washington, June 22.—The house of representatives has refused to concur in the Bristow amendment to the resolution providing for the election of senators by popular vote. The amendment specifically retains to the federal government control over such elections.

The resolution now goes back to the senate, which will undoubtedly ask for a conference on the amendment. The action of the house further complicates the legislative situation in congress and puts the date of adjournment more remotely in the future.

DEADLY WRECK

Tennessee Central Passenger Train
Collided With Engine of Work Train.

Nashville, Tenn., June 22.—A. H. Cleveland and Charles Dennis, engineers, were killed and F. Perkins, passenger conductor and William Lusk and Ben Richardson, firemen, were badly injured, while nineteen passengers from Nashville and Lebanon, including ex-Senator and ex-Governor Benton McMillan were cut and bruised by a collision between a passenger train and an engine of a work train on the Tennessee Central at the approach of a high trestle at Mill Creek, four miles east of Nashville.

QUICK GETAWAY

Tennessee Train Robbers Complete
Job Before Passengers Are Aware.

Memphis, Tenn., June 22.—An Illinois Central northbound passenger train was held up in Wolf river bottoms by two masked men, who boarded the mail car and forced the mail clerks at pistols' points to surrender the registered mail pouch. The bandits then left the train and made good their escape in the darkness. No effort was made to rob the passengers on the train, and the whole thing was over before they were aware anything out of the ordinary had happened.

Seamen Return to Work.

New York, June 22.—Encouraged over the abolition of the "crimp boarding houses" and their increase in wages of \$2.50 a month, the members of the seamen's union returned to their ships and all danger of a general strike which would demoralize local shipping is over.

PROTECTION CAT IS TO BE BELLED

But Who Is to Attach the Bell
And How?

A SENSATION IN THE SENATE

By a Vote of 39 to 18 the Upper House
Instructs Finance Committee to Re-
port the Underwood Wool Revision
Bill Back to the Senate, Which Will
Mean, It Is Said, a General Revision
of the Tariff.

Washington, June 22.—By a vote of 39 to 18 senate Democrats, Republican insurgents and near insurgents combined last night and passed a motion by Senator Gore, referring the Underwood wool revision bill, which had just come from the house of representatives, to the finance committee with instructions to report it back to the senate not later than July 10.

The action of the senate probably means a general revision of the tariff, with the prospect of the special session being prolonged until Oct. 1. The result of the vote had hardly been announced when Senator Penrose, chairman of the finance committee, had issued a call for a special meeting of the committee for this morning. It was said that Mr. Penrose would not wait until July 10, but report to the senate at once, and adversely, the Democratic wool revision bill, and perhaps also the farmers' free list bill, which also has been passed by the house. If Senator Penrose succeeds in carrying out this plan he will simply forestall the action of the combination now in control of the senate, which has already planned to force a report of the farmers' free list bill.

It is self-evident that the situation has slipped completely out of the grasp of the regular Republicans. Senator Penrose himself having acknowledged that the senate is no longer in Republican control and there is no telling just what will happen to Canadian reciprocity and how far the combination will go in regard to the tariff revision. The general impression is that the senate will not be content with passing the farmers' free list bill and the woolen bill. It is expected that the revision will cover all of the leading schedules and that there will be material reductions. The protection cat is to be belled, but just who is to attach the bell and just how it is to be attached, remains to be seen.

A large majority of the senate is apparently in favor of a revision of the tariff. The most important question now is, if the revision shall take the form of an amendment to the Canadian reciprocity bill, or whether the revision shall be carried out in a separate measure.

REJECTED IT

House Would Not Accept the Bristow
Amendment.

Washington, June 22.—The house of

representatives has refused to concur in the Bristow amendment to the resolution providing for the election of senators by popular vote. The amendment specifically retains to the federal government control over such elections.

The resolution now goes back to the senate, which will undoubtedly ask for a conference on the amendment. The action of the house further complicates the legislative situation in congress and puts the date of adjournment more remotely in the future.

KING GEORGE V.

England's Ruler in Robes
He Wore at Coronation.

EXPOSURE OF POLICE GRAFT

Resort Keeper at Ft. Wayne
Plead Guilty.

COURT SUSPENDED SENTENCE

Admitting That He Had Been Making
Costly Presents to Chief of Police,
Charles Clark, For Many Years the
Keeper of a Resort at Fort Wayne,
Paid a Fine of \$5,000 and Goes Free
on Suspended Prison Sentence.

Fort Wayne, Ind., June 22.—Charles Clark, for many years keeper of a resort in this city, paid a fine of \$5,000 and was sentenced from two to fourteen years in the penitentiary on pleading guilty to having bribed Chief of Police Benjamin F. Elliott. The fine was paid in cash and the sentence was suspended.

This is an outcome of the exposure of police graft in this city which was made early in the year and which resulted in a general tear-up of the police department, the resignation of the chief, a captain and several patrolmen, the indictment of the chief for accepting a bribe, the indictment of all the inmates of disorderly resorts and the effectual closing of the "red light" district.

The indictment of Elliott for accepting a bribe was quashed and a new indictment charging him with perjury was returned a few weeks later by a special session of the grand jury. The exposures disclosed that Clark and others had made costly presents to the heads of the police department.

INTERESTING QUESTION

Raised by Suit to Break Will Leaving
Fortune to City.

Indianapolis, June 22.—Suit to break the will of Alfred Burdsal, who died April 2, 1911, leaving nearly all his estate, valued at about \$1,000,000, to the departments of public health and public parks of the city of Indianapolis, has been brought by his widow, Mrs. Emma Bryan Burdsal, in the probate court and in superior court No. 3.

Mrs. Burdsal alleges that her husband was of unsound mind when he executed the will, about thirty days before his death, and when he executed the codicil, about fifteen days after the will was made, and that the instruments were unduly executed. It is also declared that the health and park boards have no corporate existence, and therefore are not capable of taking a bequest or legacy or of being the beneficiaries of any trust.

The opinion enjoins the defendants from continuing "said combination," and orders that it be dissolved. The court will hear argument on Oct. 16 as to the nature of the injunction which shall be granted herein and as to any plan for dissolving said combination.

The finding follows practically the decree of the United States court in the American Tobacco case.

Upsets Fellow Servant Act.

Springfield, Ill., June 22.—The appellate court of the third district has affirmed the judgment of the trial court in the case of Carl F. Taylor against the Chicago & Alton railroad for \$15,000. The judgment upsets the fellow servant act. Taylor lost one leg and suffered internal injuries in a collision.

War Declared on Firebugs.

Valparaiso, Ind., June 22.—The destruction of a \$6,000 schoolhouse in Pine township by incendiaries has caused farmers in that vicinity to arm themselves in anticipation of future visits from the gang of firebugs responsible for the burning of barns, sheds, school houses and outbuildings in this vicinity.

Freight Train on Fire.

Wabash, Ind., June 22.—An eastbound freight train on the Wabash road rushed into this city on fire. The fire department was called on the arrival of the train at the depot and the fire extinguished. The damage consisted of one car partly burned.

Poole Gets Change of Venue.

Fowler, Ind., June 22.—John Poole, indicted for the murder of Joseph Kempner, will be tried in Tippecanoe county. His attorney succeeded in having the case sent to Judge De Hart's court, over the protest of the state's attorney.

FOOD FOR ONE BILLION.**

Adequate Water Supply Is the Only
Question, Scientist Finds.

Having secured from the Himalayas a peach that will thrive on Pike's peak, an alfalfa from Siberia that will flourish on the upper stretches of the Saskatchewan and an ant from Honduras that will fatten on the boll weevil, Secretary Wilson is reaching out for more wonders. He now thinks he has achieved a great discovery in the science of agriculture as the result of the work of Professor W. J. McGee, formerly of the United States geological survey.

Dr. McGee has made a profound study of the capabilities of production of the soil of the United States under the normal conditions of water supply. Taking the arable land of the United States at a round 2,000,000 square miles, or 1,250,000,000 acres, he says this would weigh 2,500,000,000 tons, which would produce 7,500,000 tons of food annually. Such a yield, he calculates, would sustain a population of 500 to the square mile over the 2,000,000 square miles of the country, or 1,000,000,000 people in the aggregate. While the data are not mathematically calculated to a hair, Dr. McGee suggests that with a sufficient water supply the world will continue to feed the sons and daughters of men just about as it does now, except for the more crowded life and the more highly intensive methods of farming, for seventy centuries yet to come.

Dr. McGee states that there is within the earth continually a store of water equal to the rainfall of ten years. The total rainfall of the country is calculated to be 215,000,000,000 cubic feet, the equivalent of ten Mississippi rivers. Nevertheless the water supply of the mainland United States is hardly that required for full agriculture production. The annual yield of crops is, he says, one-half what it would be if the present inadequate water supply were equally distributed. He says that one-third of the rainfall runs off into the sea through the rivers. This is the run-off. A small fraction enters into chemical combinations or else penetrates deeply into the earth and finds its way to the sea by slow percolation. This is the cut-off. A greater fraction evaporates. This is the dry-off.

Before the coming of the white man to this continent the three fractions were about equal. Under the conditions of the run-off, cut-off and dry-off the continent is gradually wearing down at the rate of one foot over its entire surface in 6,000 years. Neither Secretary Wilson nor Dr. McGee expects to be able to verify these calculations.

FOR HIGHER TOBACCO TAX.

Warburton Says Congress Is Letting Millions of Dollars Get Away.

Representative Warburton of Washington, a newly elected Republican insurgent, charged congress with letting millions of dollars go to waste that it might collect in internal revenue taxes on tobacco.

"If the government would put a reasonable tax on tobacco, which may be considered a luxury," said Mr. Warburton, "it could let in woolen goods, cotton goods and sugar without any tariff whatever. If this country taxed tobacco as England or France does we could close the doors of all the custom houses except as to the importations of liquors and tobaccos."

American people are paying six times as much tax to the government on sugar as they are on five cent cigars, twelve times as much on sugar as on ten cent cigars, thirty times as much on sugar as on twenty-five cent cigars and sixty times as much on sugar as on fifty cent cigars. The rich man who smokes a thirty-five cent cigar pays 1.2 cents tax on each \$1 worth of them, while his gardener, who smokes five cent cigars, pays 6 cents tax on his dollar's worth, and his washerwoman who buys a dollar's worth of sugar pays 36 cents tax on it."

CUTS HIS OWN SALARY.

Ohio Mayor Makes Like Demand on Other City Officials.

Taxation affairs, which have caused no end of discussion in Ohio city governments for the last few months owing to the passage of the Smith 1 per cent tax law, have come to a climax in Springfield with the announcement by Mayor C. J. Bowles that he has cut his salary almost in half in order to have the city proceed with the many public improvements planned there.

Mayor Bowles has been receiving \$2,500 a year, but now announces that he has decided that \$1,500 will be enough for him to live on. He also makes the statement that he does not expect to be the only official who will chop his salary. This announcement has caused an alarm among the county officials, all of whom say they will not cut their salaries, even though the mayor should choose to cut his out altogether.

Mayor Bowles has called a meeting at which this question will be talked over in plain words. He says the officials must cut their salaries at least one-third.

Siam's Commerce.

Siam is of much more importance commercially than is generally assumed. In February of this year the exports had a value of \$3,256,935 and the imports (nearly all manufactures) \$2,233,960, both considerably more than in January.

NEWSY PARAGRAPHS.

Mrs. Otto DeArmond killed a spreading viper snake three feet long in her front yard on South Broadway Thursday morning.

Mrs. Jay C. Smith and niece, Dorothy Weinland, returned yesterday afternoon from Burney, where they were called by the death of A. J. Alexander.

Thomas Pomeroy and wife of Pleasant Grove brought in a big load of poultry this morning. They found a ready market here for all classes of poultry.

Harry Spray of Chicago, but formerly of Seymour, was arrested here for intoxication Thursday evening. Mayor Swope fined him \$1 and costs and the amount was staid.

A. W. Spreen states that he has not accepted the position of treasurer of the First M. E. church. He received the largest number of votes Wednesday evening, but declines to accept the office.

O. C. Koch of Twin Falls, Idaho, in writing the Republican renewing his subscription said: "Weather is fine here and the crops are looking fine. Farmers are putting up their first crop of alfalfa hay."

In accordance with his agreement with the police, Tommy Carter has left Bedford and gone to Bloomington. It was either leave town or submit to prosecution for violating the liquor laws.

Mrs. Cora Ebaugh of Mutton Creek has brought to the Republican office two fine specimens of potato onions which she raised. She has quite a supply of them and they bring a good price on the market.

The Rebekah Lodge had a social hour Thursday night in their lodge room after the regular session. The June committee served orange cider, cakes and ice cream cones. About fifty were present.

Mrs. Audley McClinton, of Reddington was given a surprise Thursday night by quite a number of her relatives and friends. All came masked and Mrs. McClinton was required to guess who they were. A supper was served during the evening.

Frederic Rogers, who is to give the organ recital at the Presbyterian church Monday evening, is one of the best organists in the country. Our people should not miss this opportunity to hear the beautiful new organ in the hands of a master. Admission 25 cents.

The B. & O. S-W. started this week to complete the double tracking of the road in North Vernon by building a second track on the branch on Lawrence street but the work was stopped by the council as the new track would take the whole street.

The city engineer today was figuring on the bids submitted last night for the North Poplar street improvement. The lowest bid was submitted by Shields & Marberry and it amounted to \$1531.68. The bid of Pomeroy & Jennings amounted to \$1,944.70, the Seymour Construction Company's \$2006.44 and James DeGolyer's \$2670.

Seymour Temperatures.

The following are the maximum and minimum temperatures as shown by the government thermometers at the Seymour volunteer weather observation station and reported by J. Robt. Blair, observer. The figures are for twenty-four hours ending at noon:
